

Insurance and Self-pay care fee for Fertility treatment from April, 2022

movie : Insurance-Covered Treatment

Example of treatment with insurance

Timed Intercourse

General fertility treatment administrative fee ¥750
Treatment, Test, Medication Around ¥4,800

Total cost for 1 cycle is about ¥5,550

AIH/IUI

General fertility treatment administrative fee ¥750
Treatment, Test, Medication Around ¥9,500
Artificial insemination ¥5,460

Total cost for 1 cycle is about ¥15,710

Examples of IVF using as few medications as possible

- Ovulation induction is Low stimulate method.
- After fertilization, the embryos are cultured for 5 days (blastocyst) and transferred as fresh embryo.

Assisted reproductive medical care administrative fee ¥900
Treatment, Test, Medication Around ¥13,000
Egg retrieval (One egg) ¥16,800
Conventional IVF ¥12,600
Cultivated to blastocyst ¥18,000
Time lapse cultivated method * ¥25,000
Laser-assisted hatching* ¥3,000
Hyaluronic acid culture solution * ¥3,000
Fresh embryo transfer ¥22,500

*Optional is by request only.

Total cost is about ¥114,800

If the first embryo transfer is unsuccessful, another egg retrieval will be performed, which will cost about the same amount for the second one.

Example of IVF with emphasis on pregnancy rate per egg retrieval

- Use oral medication and injection to induce ovulation.
- After fertilization, the embryos are cultured for 5 days (blastocyst) and froze whole embryos.
- Freeze and thaw embryo transfer in the following cycle or later.

┌ Assisted reproductive medical care administrative fee ¥900
Egg retrieval Cycle Treatment, Test, Medication Around ¥35,000
Egg retrieval (10 eggs) ¥31,200
Conventional IVF ¥12,600
Cultivated to blastocyst ¥37,500
Time lapse cultivated method * ¥25,000
└ Embryo freezing(5embryos) ¥21,000

┌ Assisted reproductive medical care administrative fee ¥900
Embryo Transfer Cycle Treatment, Test, Medication Around ¥15,000
Laser-assisted hatching* ¥3,000
Hyaluronic acid culture solution * ¥3,000
SEET method * ¥20,000
└ Frozen thawed embryo transfer ¥36,000

*Optional is by request only.

Total cost is about ¥241,100

If the first embryo transfer is unsuccessful, only the "Embryo Transfer Cycle Fee" will be charged as long as there are remain embryos after the second embryo transfer.

Insurance treatment is available under the high-cost medical expense benefit. There is a system which refund is made for the amount by the total amount of insurance medical treatment for the month exceeds the "co-payment limit (based on personal income). Please check with your insurance association.

IVF Egg retrieval to Embryo transfer

Egg retrieval

Health insurance

Collected eggs : 0	¥9,600
Collected eggs : 1	¥16,800
Collected eggs : 2-5	¥20,400
Collected eggs : 6-9	¥26,100
Collected eggs : ≥10	¥31,200

Self-pay care fee

Collected eggs : 0	¥49,500
Collected eggs : 1-2	¥140,250
Collected eggs : 3-5	¥176,000
Collected eggs : ≥6	¥202,400
From the third egg retrieval	¥-44,000

How to fertilized

ICSI is PIEZO-ICSI

Conventional IVF	¥12,600
ICSI : 1 egg	¥14,400
ICSI : 2-5eggs	¥20,400
ICSI : 6-9eggs	¥30,000
ICSI : ≥10eggs	¥38,400

Conventional IVF and ICSI :
If both are performed, ICSI fee +6,300 yen

ICSI is PIEZO-ICSI

Conventional IVF	¥74,800
ICSI : ≤5 eggs	¥154,000
ICSI : ≥6 eggs	¥176,000
Split ICSI : ≤5eggs	¥187,000
Split ICSI : ≥6eggs	¥209,000
Rescue ICSI/ 1 egg	¥33,000

Cultivated

Early embryo(Cultivation up to day 3)

Fertilized egg : 1	¥13,500
Fertilized egg : 2-5	¥18,000
Fertilized egg : 6-9	¥25,200
Fertilized egg : ≥10	¥31,500

Blastocyst: Additional culture from day 4 to day 6.
(Added to early embryo culture)

Fertilized egg : 1	¥4,500
Fertilized egg : 2-5	¥6,000
Fertilized egg : 6-9	¥7,500
Fertilized egg : ≥10	¥9,000

Early embryo (Up 3days) Fertilized eggs : 1-5	¥50,600
Early embryo (Up 3days) Fertilized eggs : ≥6	¥56,650
Blastocyst (Up to 6days) Fertilized eggs : ≤5. after 4 days of Cultivation : ≤5.	¥69,300
Blastocyst (Up to 6days) Fertilized eggs : ≥6. after 4 days of Cultivation : ≤5.	¥75,900
Blastocyst (Up to 6days) Fertilized eggs : ≥6. after 4 days of Cultivation : ≥6.	¥77,550

Embryo transfer

Fresh embryo transfer	¥22,500
Frozen thawed embryo transfer	¥36,000

Fresh embryo transfer	¥44,000
Frozen thawed embryo transfer	¥77,000

Embryo cryopreservation

1 embryo	¥15,000
2-5 embryos	¥21,000
6-9 embryos	¥30,600
≥10embryos	¥39,000

Cryopreservation renewal costs : ¥10,500/year

Per 1 embryo	¥27,500
--------------	---------

Cryopreservation renewal costs : ¥22,000/year

Optional menu *Advanced medical treatment

	Health insurance	Self-pay care fee (ex-tax)
Time lapse cultivated method	-	¥25,000 ~ *
Laser-assisted hatching	¥3,000	¥18,000
Hyaluronic acid culture solution	¥3,000	¥15,000
SEET method	-	¥20,000 ~ *
Endometrium scratch	-	¥10,000*

Implantation failure/ Recurrent pregnancy loss

· Preimplantation diagnosis PGT is not covered by insurance.

Normal PGT	¥77,000/1 embryo
High precision PGT	¥99,000/1 embryo

· Prograf, heparin before confirmation of the fetal sac is not covered by insurance.
